WALL STREET IS BUSY PREPARING ITS FORCES

Brokers Getting Ready to Resume Business After Many Weeks

SPECULATION IS ENCOURAGED

Free Trading Will Be Permitted in All Stocks Selling at \$15 or Under. Restricted Dealing in Semispecu-

BY BROADAN WALL.

NEW YORK, December & wall Street spent a busy day connecting up telephones, rearranging clerical forces and making other necessary preparations for the resumption of speculative activity on Saturday.

Stock Exchange officials have arranged to encourage speculation by permitting free ading in the stocks that are seiling at 5 or ander, and permitting restricted trading in the semispeculative issues and debarring many of the high grade investment stocks, such as Union Pacific, Canadian Pacific, Great Northern, pfd., and Illinois Central. cilic, Great Northern, pfd., and Illinois Central.

Brokers are merchants, and their profits depend upon the rapid turnover of other people's holdings. For nineteen weeks they have practically been without means of livelihood, and their capital in some cases has been endangered in financing the commitments of their cilents. They are, therefore, unusually keen to resume business and business is but a small portion of the day's work for the members of the Stock Exchange. Commissions on stock and speculative operations provide the bread and butter of the commission houses.

Bonds were quiet to-day. Rock Island is.

of the commission houses.

Bonds were quiet to-day, Rock Island issues were active and strong on buying, attributed to the copper interests, which control the property. The recent advance in these securities will, it is believed, be followed by an active speculation in the shares of the Rock Island Company. A lively demand was noted to-day, the common changing hands at 1% and the preferred was strongly bid at 2.

ROCK ISLAND WILL

SURVIVE ITS PUNISHMENT

Speaking of the Rock Island property.

Speaking of the Rock Island property, the head of a commission house, who has had a practical experience in railroading, said: and a practical experience in railroading, said:

T believe the Rock Island is one of the best located roads in the country. It will survive its punishment. I lived in the West for many years, and was prominently active in railroad managemenv. Union Pacific and Northern Pacific survived under circumstances in which the country could not so rapidly recuperate, and I further believe we have passed the low period of this depression. It is easily conceivable that Rock Island stocks at current prices will prove an attractive speculative proposition.

In the outside market notes were firm at the best prices yet established. Trading was quieter, with a disposition to watch the effect of renewal of stock market operations.

Copper exports from New York for the

the effect of renewal of stock market operations.

Copper exports from New York for the week ending November 14 were 12,400,000 pounds, the custom-house reported. It is believed in the trade that the business exceeded these figures. Heavy buying orders have been in the hands of exporters, although every effort is being made to hide this business. The activity of foreign agents in soliciting offers points to a continuation of heavy shipments. Domestic manufacturers are known to have taken on large amounts of the metal below 12 cents and, as many of the big producers have sold their production for months ahead, higher prices are anticipated.

The administration evidently is not going to kick the prostrate form of business, was Wall Street's interpretation of President Wilson's message.

was Wail Street's Interpretation of President Wilson's message.

NEW YORK. December 8.—Sentiment in financial circles was heartened to-day by the decision of the Stock Exchange to resume restricted trading in stocks on Saturday. This feeling was accentuated by the firmer tendency shown by nearly all classes of securities. The day's list of stocks submitted for publication showed several additions to that issued yesterday, indicating steady extension of the demand.

While no apprehension was entertained respecting the wisdom of the demand.

While no apprehension was entertained respecting the wisdom of the move made by the exchange, it may be said that every precaution to inspire this success will be taken. The fact that it has not been deemed necessary to form a money pool to be used as a backstop against heavy liquidation was regarded as an indication that offerings would find ready absorption. Another safeguard will be found in the level of prices at which all stocks over \$15 may be sold.

Further demand for exchange on Berlin was the solid feature of the market for foreign remittance, cables to that' centre being quoted at \$25, with sight drafts at \$2.

Private advices from Washington suggested an early decision by the Interstate Commerce Commission in the Eastern freight rate cuss.

Continued case marked the local money situation, call and time loans being made at the prevailing low rates. Interior lanks bought more freely of mercantile paper, these acceptances coinciding with encouraging trade advices.

Unofficial news respecting the steel industry suggested a better inquiry for special products, with a continuance of the deadlock for equipment materials. November tonnage of the United States Steel Corporation, to be published on Thursday, was expected to disclose another decrease in unfilled orders.

There's a Theory

That men are influenced by illustrations more than by arguments.

Hence the following:

The VIRGINIA TRUST CO. has qualified on these estates in the past TWO WEEKS.

1st. As Trustee in Hanover County on a fund of \$20,000.00.

2d. As Executor and Trustee in Henrico County on an estate worth \$16,000.00.

3d. As Co-Executor and Sole Trustee in Hanover County on an estate worth \$75,-000.00.

4th. As Special Custodian in Albemarle County of securities worth \$36,000.00.

It looks like the people have learned a fact we want them to know—namely, that the VIRGINIA TRUST COMPANY makes the "SAFE EXECUTOR."
